Managed Services

Simplify Cyber Security Awareness:

Keeping things secure shouldn't be a headache. We make cyber security straightforward and relevant to your specific needs. Why juggle complex security tasks when we can streamline everything for you? Check out our services below to see how we can help make security management both effective and hassle-free for your team.

✔ **Managed eLearning Campaigns:**

Tailored training programmes that engage and educate, using our extensive eLearning library to cover all your cyber security education needs.

✔ **Simulated Phishing Tests:**

Customised simulations that keep pace with the latest phishing threats, training your team to recognise and react with confidence.

✔ **Personally Selected Security Content:**

Regular updates with handpicked blogs and articles, ensuring your team stays informed on the latest cyber security threats and best practices.

✔ **Policy Compliance Monitoring:**

We closely monitor to ensure everyone is up-to-date and following key security rules, keeping your team informed and compliant.

✔ **Annual Security Awareness Campaigns:**

Tailored campaigns that provide ongoing, engaging cyber security education to meet your specific business needs.

The Benefits:

✓ Save time and resources with expert support.

✓ Reduce cyber security risks by changing employee behaviours.

✓ Gain confidence with measurable results and insights.
