

Custom Content

Bespoke Content, Zero Hassle:

Creating custom and bespoke training courses for your organisation's cyber security awareness and compliance training does not have to be time-consuming. Our team is here to help you save time and deliver world class content that fits your unique needs.

Why Choose MetaCompliance Custom Content?

✓ **Completely Tailored Content:**

Our team can work with you and your team to both customise our current nano library to your liking and create custom content from scratch in multiple languages.

Subject Matter Experts:

✓ We are the subject matter experts in all things cyber and compliance so you can lean on us to ensure your training will engage and educate your staff.

Save Time:

✓ Focus on your priorities while we handle content / course creation with precision and speed. No more classroom / teams' sessions with clunky PowerPoint Presentations!

How it works:

- 1 Scoping:** Share with us your learning / content objectives and your preference for content styles.
- 2 We Storyboard:** Our experts create a tailored plan for your content and learning objectives.
- 3 Approve and Create:** We create the content with regular reviews along the way.

The Benefits:

- ✓ Deliver content that resonate with your employees
- ✓ Simplify compliance and save valuable time
- ✓ Have a strong audit trail for all training courses
- ✓ Partner with experts in cyber security and compliance content creation
